ALLIANCE PRODUCTS

High-value stainless steel and aluminum equipment

Specifications

- Stainless steel is nickel-bearing, 200 series minimum. This material is NSF recognized for corrosion resistance.
- Accommodates 10 or 20 each, 14" x 18" or 15" x 20" trays, end loaded one per ledge.
- Door opens a full 270 degrees for unobstructed access and contains a hold open device.
- Paddle door latch assures positive door closure.
- Recessed vertical push handles on both ends of the double component model and on the rear of the single compartment model.
- Cart body and removable stainless steel tray slides are easily cleaned and sanitized.
- Compartment floor drain facilitates interior cleaning.
- Perimeter bumper protects walls, furnishings and doors.
- Space saving narrow design.
- 18 gauge stainless steel body and doors.
- 16 gauge stainless tray slide with 14 gauge uprights.
- 16 gauge bottom and top.
- Please contact our facility at 615-895-5333 with inquiries for custom tray sizes, capacities, and ledge spacing.
